Subject: FOIA production -- EELI v EPA

Ryan – we have a production due tomorrow in the EELI v. EPA case. It’s regarding an EPA grant of an amendment of the Enlist Duo registration (glyphosate) to allow for its use in nine additional States. EELI seeks information from specific EPA officials showing communications with IARC, CARC and named individuals over a limited, specified date range concerning glyphosate.

Nancy has reviewed and is good with the response.
